

Infant Dedication Application

We are so happy that you have chosen to dedicate your child. Please be advised that an infant dedication has at least two purposes:

1. It is the intentional “offering” of your children back to God. In effect you as the child’s parents are saying that you are willing to set aside your personal agendas and aspirations for your child and instead make your child “available” to God for Him to use in whatever way He so chooses. You are saying that you will not hinder, but rather support, your child in their pursuit of God’s best plan for their life...whatever that may be. The act of dedication therefore is really a statement of both your gratitude to God, and your confidence and faith in God...you are acknowledging that His way is best!
2. Baby dedications also provide an opportunity for parents to make a specific promise to God. *You must meet with the Pastor prior to the agreed date of dedication; he will explain further what the dedication process is all about and answer any questions.*
